

LIFE-SAVING STATION AT CITY POINT, BOSTON HARBOR,
MASSACHUSETTS.

FEBRUARY 11, 1895.—Committed to the Committee of the Whole House on
the State of the Union and ordered to be printed.

Mr. WISE, from the Committee on Interstate and Foreign Commerce,
submitted the following

REPORT:

[To accompany S. 2595.]

The Committee on Interstate and Foreign Commerce, to whom was referred the bill (S. 2595) to establish a life-saving station at or near City Point, Boston Harbor, Massachusetts, report the same back with the recommendation that the bill do pass.

This bill is identical with H. R. 7973 reported favorably from this committee August 15, 1894. From the correspondence had with the Treasury Department on this subject, and which will be found in House Report 1441, the committee believes that the proposed life-saving station would be of great benefit in saving human life. It will not be necessary to employ a crew during the whole tour of service provided for by law in the case of life-saving crews at other stations, and the bill provides that the Department shall have the power of withdrawing the life-saving crew and discontinuing the life-saving station for such period of the year as, in its judgment, may be desirable and proper.
